- Supports R400 series modules & accessories
- I/O Modules
- Communication Modules (RS232/RS485)
- Up to 250 Products
- Built in RS232/RS485 ports
- Up to +/- 15 degree compensation

The K491 is a general purpose indicator that uses an accessory module to connect to a 2 axis tilt sensor that provides tilt compensation.

The K491 is ideal for specialist truck OEM's requiring electronics for accurate load weighing solutions where the load may be on an angle. The K491 is simple to setup and calibrate. Both the ABS R420-K491 and stainless steel R423-K491 are ideal for panel mounting in a truck cab, featuring a large display and programmable function keys.

Applications

- Onboard weighing
- Mobile weigh bridges
