Proudly designed and manufactured in Australia

The EZI-Check™ AUTO Dynamic Roller scale is a freestanding, powered roller weighing system that can be incorporated into new or existing production lines allowing automated and precise checking of cartons for missing or damaged products. The EZI-Check™ AUTO can operate 'stand-alone' or be fully integrated into existing process control systems, providing peace of mind for you and your customers.

Can you afford not to invest in an EZI-Check™ AUTO carton checking system?

"If you can **MEASURE** it,
You can **CONTROL** it"

FS-i, water & dust proof

- Can typically check up to 50 cartons per minute
- "Start/Stop" or continuous weighing modes available
- Rejection modules can be added or the EZI-Check AUTO can be interfaced with existing reject
- Additional visual and audible alarm options available
