

Designed for Durability and Flexible Performance in a Variety of Moisture Applications

MB62 features a redesigned housing, innovative carbon fiber heating and upgraded load cell for enhanced durability and performance. With flexibility in method creation, settings and data access, MB62 is suitable for a variety of moisture applications in numerous industries.

Unique Features:

- Designed with durability and simplicity in mind, the wide 5-inch LCD display, knob control, and new carbon fiber heating technology guarantee a longer service life and reliable results.
- Flexible method and sample management with 4 drying profiles, 7 shut off criteria and library storage for up to 20 methods, and 100 results with sample ID for easy recall.
- Understand the status of your test and machine at all times. The indication curve shows the status of the test, and the machine status can be seen easily with the multi-color status light.
